

BASIC PROVISIONS AND TAX BASE OF THE NEBRASKA INDIVIDUAL, FIDUCIARY, AND CORPORATION INCOME TAX, AND FINANCIAL INSTITUTION TAX LAWS

Individual Income Tax*

Nebraska individual income tax is imposed for each taxable year on the entire income of every resident individual. Nonresident and partial-year resident individuals are taxed on income derived from Nebraska sources. For tax year 2000, the rates are 2.51, 3.49, 5.01, and 6.68 percent of Nebraska taxable income. Brackets for each filing status are outlined in section 77-2715.02. A personal exemption credit is allowed against the tax computed for every federal personal exemption of the taxpayer. For tax year 2000, the credit is \$91.

The tax is calculated as a percentage of Nebraska taxable income. Additional taxes are computed on alternative minimum tax and premature and lump-sum distributions from qualified retirement plans at a rate equal to 29.6 percent of the federal tax amount. Nebraska taxable income starts with federal adjusted gross income, adds interest from non-Nebraska state and local government obligations, and subtracts U.S. government obligations and other adjustments decreasing income. A standard deduction equal to the federal amount or federal itemized deductions less state and local income tax is allowed as a deduction. These deductions, together with the personal exemption credit, are reduced for higher income taxpayers. An additional tax which phases out the benefit of lower tax rates in the first income brackets is also computed by higher income taxpayers.

Fiduciary Income Tax*

Nebraska income tax is imposed for each taxable year on the adjusted federal taxable income of a resident estate or trust. Nonresident estates and trusts have the Nebraska income tax imposed for each taxable year on the portion of their income derived from sources within Nebraska.

In both cases, the tax is calculated as a percentage of Nebraska taxable income. The rates are 2.51, 3.49, 5.01, and 6.68 percent. The brackets are established in section 77-2715.02.

Corporation Income Tax*

Nebraska corporate income tax is imposed upon any corporation or any other entity taxed as a corporation (not including a corporation with a valid federal subchapter S election) which is doing business in Nebraska. For a corporate taxpayer subject to tax in another state, the entire adjusted federal taxable income of the unitary business is apportioned according to the statutory formula to determine the portion attributable to sources within Nebraska. For a corporate taxpayer not subject to tax in another state, the entire taxable income is subject to tax in Nebraska. Each corporate taxpayer is required to file one, single combined tax return for each taxable year.

The corporation income tax rate is calculated as a percentage of the primary individual rate. The primary individual rate is 3.70 percent. The corporation rate on the first \$50,000 of taxable income

is 150.8 percent of the primary rate and 211 percent of the primary rate on the excess. The 2000 rates are 5.58 percent and 7.81 percent, respectively.

Financial Institution Tax*

Every financial institution which maintains a permanent place of business in this state and actively solicits deposits from residents of this state must file a Nebraska Financial Institution Tax Return, Form 1120NF. This franchise tax is based on the average deposits of the financial institution. The rate of tax on deposits is 12.3 times the limitation rate. The limitation rate is 48.8 percent of the maximum corporate income tax rate in effect for the taxable year. The maximum corporate income tax rate in effect for the 2000 taxable year is 7.81 percent. The franchise tax imposed does not exceed the limitation amount. The limitation amount is the product of the net financial income of the financial institution multiplied by the limitation rate. Financial institutions pay a franchise tax of 47 cents per \$1,000 of average deposits, limited by the institution's net financial income multiplied by 3.81 percent. Each financial institution is required to file a separate franchise tax return.

The tax imposed is based on the amount of average deposits connected with the financial institution's operations in Nebraska. Such deposits are deposits which are accepted at the financial institution's offices located in Nebraska, plus deposits solicited from residents in Nebraska even if accepted at an office of the financial institution outside of Nebraska.

*The taxes collected are deposited to the State General Fund for these tax programs.

EXEMPTION

<p>Nebraska utilizes the federal calculation of taxable income for corporations as a base for computing taxpayers' Nebraska liability. Federal adjusted gross income, plus and minus adjustments, is used to determine Nebraska taxable income for individuals. Income tax for fiduciaries is based on taxable income. Nebraska tax tables, rates, and credits are used to determine tax liability. Some deductions (Nebraska corporation income tax) and adjustments to income (Nebraska individual, fiduciary, and corporation income tax) adopted under the Internal Revenue Code and federal regulations are recognized by Nebraska due to the linkage between the two systems. Federal tax credits are not recognized unless specifically approved by the Legislature. Any federal taxable income that is exempt from state taxation pursuant to federal law is not taxed by Nebraska.</p>	<p>NA¹</p>

Section 77-2716(2)

There shall be allowed a net operating loss derived from or connected with Nebraska sources computed under rules and regulations adopted and promulgated by the State Tax Commissioner consistent, to the extent possible under the Nebraska Revenue Act of 1967, with the laws of the United States. For a resident individual, the net operating loss computed on the federal income tax return shall be adjusted by the modifications contained in this section. For a nonresident individual or partial-year resident individual, the net operating loss computed on the federal return shall be adjusted by the modifications contained in this section and any carry-overs or carry backs shall be limited to the portion of the loss derived from or connected with Nebraska sources.

\$6,654,241

Section 77-2716(3)

There shall be subtracted from federal adjusted gross income for all taxable years beginning on or after January 1, 1987, the amount of any state income tax refund to the extent such refund is included in federal adjusted gross income.

\$2,283,984

Section 77-2716(5)

Taxpayers are allowed to subtract from federal taxable income any dividends received or deemed to be received from corporations that are not subject to the Internal Revenue Code.

NA

Section 77-2716(6)

Corporate taxpayers are allowed to subtract from federal taxable income a portion of the income subject to tax by a foreign country in excess of the maximum applicable federal tax rate for tax years beginning or deemed to begin on or after January 1, 1985.

\$8,437,822

Section 77-2716(7)

Federal adjusted gross income shall be modified to exclude any amount repaid by the taxpayer for which a reduction in federal tax is allowed under section 1341(a)(5) of the Internal Revenue Code.

NA

Section 77-2716(8)(a)

A self employed individual with health insurance expenses may deduct the difference between the amount qualified as a deduction under the Internal Revenue Code section 162(1) and the amount allowed federally. For tax year 2000 the Nebraska deduction is 40% of the amount paid.

\$2,083,051

Section 77-2716.01(2)

Every individual who did not itemize deductions on his or her federal return shall be allowed to subtract from federal adjusted gross income a standard deduction equal to the federal standard deduction for the filing status used on the federal return. The standard deduction is reduced for higher income taxpayers.

\$117,596,804

Section 77-2716.01(3)

Every individual who itemized on his or her federal return shall be allowed to subtract from federal adjusted gross income the greater of either the Nebraska standard deduction or all of his or her federal itemized deductions, except for the amount deducted on the federal return for state or local income taxes paid. Itemized deductions are reduced for higher income taxpayers. \$159,853,290

Section 77-2734.07

Corporate taxpayers are to add to their federal taxable income the amount of any federal deduction because of a carry forward of a net operating loss or any capital loss. Corporate taxpayers are allowed a deduction for a carry forward or a carry back of a net operating loss or a capital operating loss connected with operations in Nebraska. For a net operating loss or capital loss incurred by a corporation in taxable years beginning or deemed to begin on or after January 1, 1987, the deduction is allowed only for each of the five tax years succeeding the year of the loss. \$13,748,550

Section 76-1235

Certain awards to individuals and businesses under LB254 (Relocation Assistance Act) are deductible for state income tax purposes to the extent the payment was included in federal adjusted gross income. NA

Section 77-27,187 (Employment Expansion and Investment Incentive Act - LB1124, as amended by LB270 and LB335)

(See separate section)

Tax credits are provided for qualifying businesses which increase investment of at least \$75,000 and increase net employment by an average of two full-time positions during a taxable year. Credits may be used to reduce a portion of the taxpayer's income tax liability or to obtain a refund of sales and use tax paid. Initial increase in employment and investment must occur in one taxable year, but additional credits may be obtained for increasing employment by two or more full-time employees during the next five years. An additional investment of a required amount during this time is not required. The credits are \$1,500 per net new employee and \$1,000 per \$75,000 net new investment.

Section 77-4101 (Employment and Investment Growth Act - LB775, as amended by LB1234)

(See separate section)

A taxpayer's business may be eligible for tax incentives under the Employment and Investment Growth Act if the business is in a qualified activity and the plans result in (a) the investment in qualified property of at least \$3,000,000 and the hiring of at least 30 new employees, (b) the investment in qualified property of at least \$10,000,000 and the hiring of at least 100 new employees, or (c) the investment in qualified property of at least \$20,000,000.

Section 77-4901 (Quality Jobs Act - LB829, as amended by LB1368)

(See separate section)

A taxpayer may qualify for additional benefits in addition to those received under section 77-4101 (LB775). Employment and investment are determined in the same manner as LB775. Employment is counted in terms of equivalent employees. An investment of \$50 million in qualified property and hiring of 500 new employees, or \$100 million in property and hiring of 250 new employees, is required and must be attained by the end of the sixth year after filing of the application.

Section 66-1346

Through December 31, 2000, each producer of Nebraska-produced ethyl tertiary butyl ether (ETBE) shall receive a nonrefundable credit of fifty cents per gallon of each gallon of Nebraska-produced (ETBE) sold for delivery outside the State of Nebraska, which credit shall be in the form of a transferable income tax credit certificate which may be applied only to the income tax liability of the producer, its parent or a subsidiary thereof.

PREFERENTIAL TAX RATES**Section 77-2734.02(1)**

The corporation income tax rate is calculated as a percent of the primary rate. The primary rate is 3.70 percent. The corporation rate on the first \$50,000 of taxable income is 150.8 percent of the primary rate and 211 percent of the primary rate on the excess. The 2000 corporation income tax rates are 5.58 percent and 7.81 percent, respectively.

\$6,186,438

Section 77-2734.02(2)

Insurance companies are subject to the lesser of the rate set forth in section 77-2734.02(1) or the rate of tax imposed in the state or country in which the insurance company is domiciled if the state or country of domicile imposes a retaliatory tax on Nebraska insurance companies which includes the Nebraska corporation income tax.

NA

Section 77-2715.02

The individual and fiduciary income tax rates are calculated as a percentage of the primary rate. The primary rate is 3.70 percent. The primary rate set by the Legislature is multiplied by the following factors to compute the tax rates. The factors for the brackets, from lowest to highest bracket, are .708, .986, 1.415, and 1.890. The tax rates for the 2000 tax year are 2.51, 3.49, 5.01, and 6.68 percent of Nebraska taxable income, using the brackets listed in section 77-2715.02.

\$36,770

¹ Figures are not available, nor applicable for any deductions (corporate) and adjustments to income (individual, fiduciary, and corporate) allowed by the Internal Revenue Service and federal regulations; since Nebraska corporation income tax is based on federal taxable income, Nebraska individual income tax is based on federal adjusted gross income, plus and minus adjustments, and Nebraska fiduciary income tax is based on taxable income.

² The four-bracket Nebraska individual and fiduciary income tax system may not be considered a “preferential tax rate” and hence, not a true tax expenditure.
